**Subject:** Contaminated soil/water barrels in Penn Plaza

Pat – do you remember about a year and a half ago when we were discussing removal/disposal of the barrels on the McConkey property? The barrels were at two places, and Trip McConkey offered to let us use a forklift to load the barrels. in looking through e-mails I have a note to Chal that I planned to discuss the budget with Wayne, but can't find further e-mails, and can't remember whether the material was removed or not. Were you involved in this one? Wayne thought you might have been.
